**The English landscape would never be the same again!**

- How two artists in their fifties “conned the world” and spawned an international phenomenon.
- Three generations of crop circle makers tell the stories behind the amazing crop formations, in the first book of its kind.
- Secrets of the artists revealed in a complete “how-to” guide!
- Inside the world of the “croppies”, the people who study the crop circles.
- Bizarre beliefs examined, bogus science exposed!
- In-depth interviews with Doug Bower, the man who started it all, and The Circlemakers, the team behind some of the most spectacular formations on record.
- From the team behind [www.circlemakers.org](http://www.circlemakers.org) and the editor and publisher of *Strange Attractor Journal*.

Three decades ago, two men in their fifties began flattening circles into the fields of Hampshire and Wiltshire. Little did they know that their Friday night antics would seed an international phenomenon that continues to change people’s lives to this day.

Now, in the first book of its kind – part history and part how-to guide – the secrets of the crop circle world are revealed, by the people behind the modern era’s most astounding artform.

Whether you think crop circles represent a genuine mystery, a new kind of art, or an elaborate practical joke, *The Field Guide* is sure to leave a lasting impression. Join us in the fields for a unique exploration of this very English artform.
